Acquire interdisciplinary skills that combine technical expertise, IT skills and knowledge of digital technologies to pioneer transformation. Develop expertise for in-demand roles like data scientist, business intelligence analyst, full stack developer, information security analyst, machine learning engineer, etc.

- Artificial Intelligence
- Virtual Reality
- Big Data Analytics
- Blockchain
- Cloud Computing
- Cybersecurity
- Internet of Things
- Web & Mobile Development
- Robotic Process Automation
- 3D Printing

- Foundation course
- Bridge course
- Deep Skilling course

**Customized Course Plans**

Pick among bite-sized microlearning content or advanced courses aligned to National Skills Qualifications Framework (NSQF)

**Government of India Incentives**

Earn Cashback from the Government as you learn

**Get your NASSCOM Certificate**

Recognized by the industry & backed by the Government

**Endorse your digital tech skills**

Open opportunities for specialized roles like security analyst, cloud architect, IoT network specialist, etc

**28 million  
new tech jobs**  
will be created in India  
by 2025.

# 70+ JOB ROLES FROM THE FUTURE

## Cyber Security

Security Analyst | Analyst Application Security | Analyst Identity and Access Mgmt | Analyst End Point Security | Analyst Security Operations Centre | Penetration Tester | Consultant Network Security | Forensic Specialist | Security Infrastructure Specialist | Architect Identity and Access Mgmt

## 3D Printing

Software Engineer-Slicing | 3D Modelling Engineer/3D Graphic Artist | Solution Architect | System Test Engineer | 3D Printing Technician | Material Analyst Engineer

## Blockchain

Developer | Engineer | Testing Engineer | Project Manager | Web Designer

## Virtual Reality

App Developer | Optical Scientist | Product Hardware Engineer | Service Technologist | VFX Artist | Testing Engineer, Virtual Reality | UI Designer | Computer Vision Engineer | Information Security Analyst | Solution Architect | Sensor Architect | Sound Designer, Virtual Reality | Software Engineer, VR Devices | 3D Modelling Engineer/3D Graphic Artist

## Mobile Tech

Social Engagement Manager | UI Designer | UX Designer | Application Developer | Testing Engineer | Digital Marketing Specialist

## Robotic Process Automation

Service Engineer | Business Analyst | Robotic Process Automation Developer | Solution Architect | Development Coordinator | Solution Architect | Testing Engineer | Business Analyst

## Artificial Intelligence

AI Research Scientist | AI Research Scientist Image & Videos | Hardware Integration Engineer | AI Research Scientist, Language-Processing | Data Scientist | Data Architect | Software Engineer, Testing | Software Engineer, Application-Platform, AI

## Internet of Things

Embedded Systems Programmer | Cloud Support Engineer | Information Security Analyst | Solution Architect | Business Analyst | Hardware Design Engineer Designer | Computer Vision Engineer | UI/UX Designer | Network Wireless Specialist | Software Engineer | Data Scientist | Testing Engineer, IOT | App Developer | Data Architect

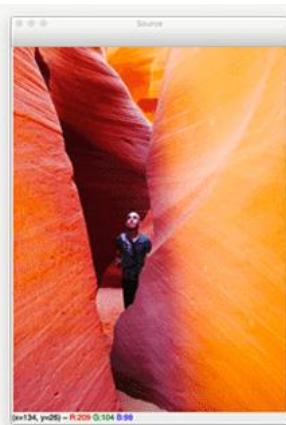

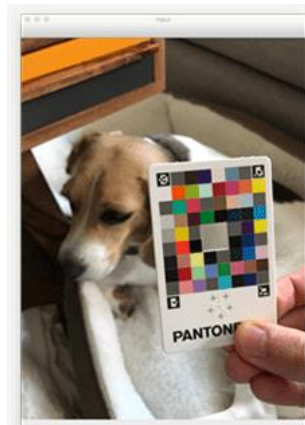

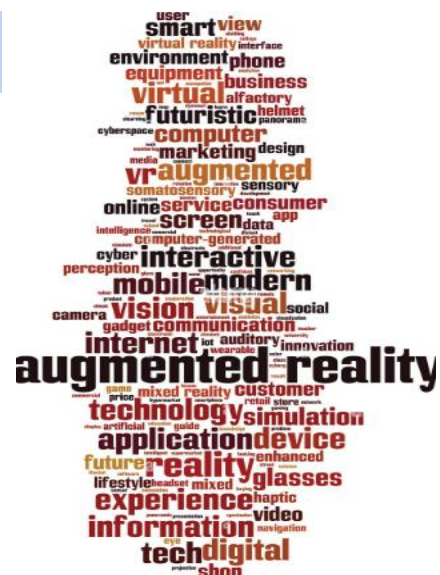

## Big Data Analytics

Data Analyst | Data Integrator | Business Analyst | Data Scientist | Solution Architect

## Cloud Computing

Migration Engineer | Cloud Architect | Cloud Software Engineer

## Application Areas :

NIELIT Chandigarh

## Co-Lead Augmented and Virtual Reality – Technology Domain

**Permanent campus :** Bada Phull, Birla Farms, near IIT Ropar,  
Roopnagar, Punjab -140001 Ph: 01881-257008

**Chandigarh Ext. Center :** IETE Building, Sector 30B,  
Chandigarh. Ph: 0172-2650121

Six month industrial training program in

Dual Certification  
Advantage with  
Cisco Networking Academy

## Internet of Things (IoT)

under joint certification with IIT Ropar

### Training curriculum:

- Module 1: Embedded C Programming
- Module 2: Interfacing of Sensors and actuators
- Module 3: Python Programming
- Module 4: Raspberry Pi.
- Module 5: Data Science using Python.
- Module 6: Artificial Intelligence and Machine Learning.

### Course Highlights:

- Joint Assessment and certification
- Lectures by faculty of NIELIT and IIT
- Course curriculum jointly designed by NIELIT and IIT Ropar
- Industry oriented approach
- Major thrust on Hands-on training

Six months Industrial Training program in

Dual Certification Advantage  
Cisco Networking Academy

## ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

Joint Certification With IIT Ropar  
to be conducted at NIELIT permanent campus  
Ropar (Hostel Facility Available)

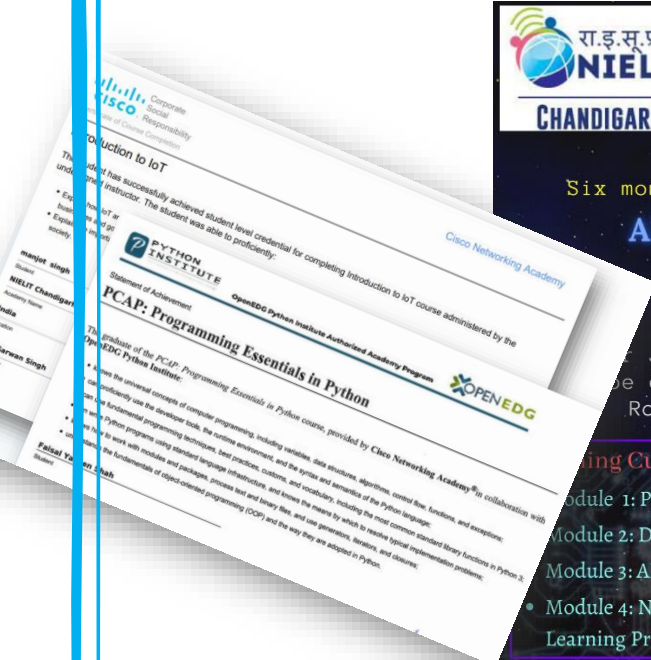

### Training Curriculum:

- Module 1: Python Associate
- Module 2: Data Analyst
- Module 3: AI and Machine Learning Expert
- Module 4: Neural Networks and Deep Learning Professional

### Course Highlights:

- Instructor led Blended mode
- Joint Assessment and certification
- Lectures by faculty of NIELIT and IIT Ropar
- Course curriculum jointly designed by NIELIT and IIT Ropar
- Exposure & access to high standards of IIT and NIELIT's industry oriented approach
- Major thrust on Hands-on training

- Dedicated ML and DL Project Development Work with Front End using Flask
- Assignments, Tutorials and Reading Material
- Tools Covered: Python, Numpy, Pandas, Matplotlib, Seaborn, Scikit Learn, Keras, Tensorflow, Pytorch, NLTK, Flask

Ministry of Electronics & Information Technology  
Government of India

### 5G and Beyond

#### Upcoming Programmes

- 5G Basics: 2G to 5G Evolution, 5G Network Elements
- 5G Standards & Implementation: Key Features, Deployment Models
- 5G Adjacent Technologies: Cloud/Edge Computing, Artificial Intelligence/Machine Learning, Internet of Things (IoT), Augmented and Virtual Reality (AVR)
- 5G Security aspects
- Hands ON Exposure in Lab for Industry Specific Use Cases
- 5G Certifications in collaboration with Industry partners
- Customized 5G technical sessions for Government Officials/Corporates

Ministry of Electronics & Information Technology  
Government of India

### Artificial Intelligence of Things (AIoT)

#### Key Projects

- AI Powered Smart Attendance System
- AIoT based Smart Parking system
- Smart Water Metering
- Smart Weighting Scale – an Industrial IoT (IIoT) application

### IoT needs AI

### NIELIT Chandigarh

an Autonomous Scientific Society under the administrative control of  
Ministry of Electronics & Information Technology,  
Government of India

announces  
online instructor-led workshop  
on

## DATA SCIENCE USING PYTHON

This is an action-packed learning Path for data science enthusiasts and aspiring data scientist who wants to learn data science hands-on with Python

No prior coding experience needed

Open for all

Register at : <https://nltchd.info/trgcandreg/studAdmission>

Certificate will be issued by NIELIT Chandigarh

### NIELIT Chandigarh

an Autonomous Scientific Society under the administrative control of  
Ministry of Electronics & Information Technology,  
Government of India

announces  
online instructor-led workshop  
on

## BLOCKCHAIN

No prior coding experience needed  
open for all

Register at : <https://nltchd.info/trgcandreg/studAdmission>

Certificate will be issued by NIELIT Chandigarh

NIELIT has endeavored to establish standards to be the country's premier institution for Training and Capacity Building in the field of IECT.

## WORKSHOP ON

### BIG DATA ANALYTICS and AUGMENTED & VIRTUAL REALITY

Importance

Innovative uses

Career Paths

- Facilitate Quick and Accurate decisions.
- Optimum Utilization of Resources.
- Predicting Future Possibilities.
- Accurate Medical Treatment.
- Reduce Tax Evasion.
- Quality Food Production.
- Business Intelligence Analyst.
- Data Engineer

- Improve Educational Value.
- Memorable Immersive Lessons.
- Eliminates cognitive overload
- Create Enjoyable Experience.
- Immense market potential
- Heightens user engagement
- Design /Graphic Engineer.
- AR/VR Designer

# PYTHON

For Data Analysis and Machine Learning

Learn the fundamentals of clean, effective Python coding and build the Practical Skills

No prior coding experience needed      Open for all

Register at : <https://nltchd.info/trgcandregn/studAdmission>

Certificate will be issued by NIELIT Chandigarh

Course name	Introduction to Cyber Security
Duration	2 weeks (3 hrs daily)
Fee	Rs. 1500/- + 18% GST
Eligibility	10 <sup>th</sup>
Certification	<ul style="list-style-type: none"> <li>NIELIT Certification (classroom theory+practical)</li> <li>Cisco Certification (online-self paced)</li> </ul>

#### Syllabus

- Cybersecurity - Introduction, need, application areas
- Basics of Networking, connecting devices, media
- Cybersecurity Landscape - Attacks, Concepts and Techniques
- Protecting data and privacy
- Cyberwarfare
- Firewall - types, filters
- Detecting attacks, Malware
- Behaviour based security, Botnet, kill chain
- IPS and IDS
- Operating System Security, system Security
- Web security, Wireless network security
- Cyber laws

Dual  
Certification  
Advantage

#### Solar Photo Voltaic System Installation & Maintenance

Level-I	Solar System Installation
Level-II	Solar System Repair & Maintenance
Level-III	Installation and Maintenance of Solar Lighting

#### Programming in Arduino & Applications

Level-I	Basic Arduino Interfacing
Level-II	Arduino Sensor Application
Level-III	Making Line Follower using Arduino
Level-III	Making Automatic Night Lamp using Arduino
Level-III	Making LED based Lightning Products

#### Basic Science Projects

Level-I	Basic Science Projects-I for classes VII & below
Level-II	Basic Science Projects-II for classes VIII & above

#### PC Hardware & Networking

Level-I	Basics of PC Organization
Level-II	Installations & Troubleshooting in PC
Level-III	Building Networks & Sharing in PCs
Level-III	Installation of Networking Devices

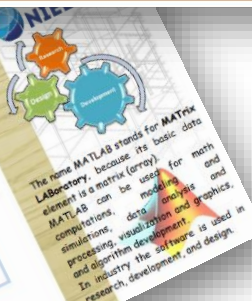

#### 3D Printing & Modelling

Level-I	Basics of 3D Printing
Level-II	3D Printer Modelling

#### Paper Circuit Based Systems

Level-I	Basics of Paper Circuits
Level-II	Making Projects using Paper Circuits

*Demand of highly skilled, imaginative product design engineers continue to rise & career opportunities are varied, challenging & rewarding. Course of Electronic Product Design is beneficial for those candidates who want to focus a career in Electronics Design or Manufacturing, or in Engineering Industry & wish to develop knowledge and skills.*

#### Certificate course in Electronic Product Design

- ✓ Fundamentals of design and technology of Electronic Products
- ✓ Embedded C Language using Keil
- ✓ Designing Microcontroller based systems - 8051/ARM7
- ✓ Introduction to PIC, AVR, Arduino, Raspberry pi
- ✓ IoT - Architecture, interfacing sensors, interfacing with web
- ✓ MATLAB
- ✓ VLSI simulation using VHDL/Verilog
- ✓ PCB design and layout

Project work

- ✓ Well furnished library
- ✓ Well equipped laboratory
- ✓ Qualified experienced & dedicated instructors
- ✓ Online Learning Management System
- ✓ Cisco Certified Academy
