STATE OF THE ART INFRASTRUCTURE:

There are 13 nos. of standard Computer Science Labs under Local Area Network system along with specialized "Cyber Security & Networking", "Embedded System & IoT", "Nano Technology" and "Augmented Reality & Virtual Reality" Labs. All labs are well equipped with branded desktop PCs, well furnish Tables & Chairs with Projector Display. All the PCs are provided internet connection through NKN network. The Institute assigned one computer to one student for training.

The Institute also has Sate-of-Art labs in Electronics & allied fields "Communication Engineering", "Design & Fabrication of PCB", "Electro-Medical", "Power Electronics and Test & Measurement", "Solar Energy" etc.

Apart from labs, the Institute has Mechanical Workshop, 150 seats capacity Seminar Hall, Multipurpose Hall and Indoor Basketball Hall.

The Institute Library has a collection of 14417 volumes of books, which is being automated by using Integrated Library Management software, e-Granthalaya 4.0, developed by National Informatic Centre, Govt. of India. Journals and e-books are also available through MCIT Library Consortium.

Separate Hostels for both Boys & Girls are available in the campus with more hostels for SC/ST Boys & Girls of capacity 100 each are being constructed with funding from North Eastern Council. Residential quarters for staff are available with various amenities and scenic landscape.
