

# Fundamentals of Data Curation using Python

NSQF Level : 3.5

**Duration : 120 Hours/08 Weeks**

This program is sponsored by Ministry of Electronics & Information Technology (MeitY), Govt. of India, for Empowering the youth by imparting training in Emerging AI Technologies" under India AI FutureSkills pillar of IndiaAI Mission,

**Start From**

**03<sup>th</sup> Jun 2025**

**Timing: 11:00 AM - 2:00  
PM**

**Fees: Nil**

**(GEN/OBC/SC/ST/PwD)**

**Eligibility Criteria  
Grade-10<sup>th</sup> Pass**

## Course Modules:

- Module 1: Foundational in Python Programming
- Module 2: Basics of Artificial Intelligence & Data Science.
- Module 3: Introduction to Data Curation.
- Module 4: Data Collection & Acquisition Methods.
- Module 5: Data Integration, Storage & Visualization.
- Module 6: Data Quality and Governance.
- Module 7: Advanced-Data Management Techniques.
- Module 8: Application of Data Curation.

**Salient Features:** **Mode:** Offline(In-campus)

- Session by Expert
- NSQF aligned Certificate
- Hands-on learning
- Self Assessment
- Access to Physical Resources
- 3 credit as per National Credit Framework (NCrF))

**Enquiry Now**

**20  
Seats**

Admission shall be based on  
written / Interview
